FALLS IN VAT OF BOILING DYE

Mayfield Man in Serious Condition from Accident at Washin Mills.

Herman King, 40, of Mayfield, was struck by a piece of machinery at the Washin Mills, falling into the vat of boiling dye, and was seriously injured.

King, it is said, was working at the place when a piece of machinery struck him in the stomach and sent him falling into the vat of boiling dye. He was unable to extricate himself and was seriously injured.

Mr. King is now in a serious condition at the hospital. He has been in the hospital for several days and is expected to recover.

STATE REVENUE \$1,511,801.

State revenues for the fiscal year 1920, according to the report made by the State Department of Finance, amounted to \$1,511,801.

The balance at the close of the fiscal year 1919, was \$1,000,000. During the year, the department has received \$1,511,801.

This showing for the fiscal year, however, cannot be taken as conclusive that the revenues for the current fiscal year will fall below the estimate.

The calendar year for which figures are available include only six months of the fiscal year considered in the last report.

A WOMAN IN THE FIELD.

If current reports be true, Miss Clara Morehead, will be a candidate for the office of Circuit Clerk in the coming election.

The Fulton Wireless in commenting on the prospects for league baseball in this neck of the woods next summer points out the apathy which the citizens of Paducah are showing toward the proposition.

Mary Garden, grand opera star, has been elected director of the Chicago Opera Association.

E. R. Ellison and wife and little daughter, Mary Parks, left Sunday morning for St. Louis to be gone for a few days.

J. O. WEST OUT FOR SHERIFF

Hickman Mayor Announces for Important Fulton County Office.

The Courier takes pleasure in presenting to the voters of Fulton County the name of Mayor J. O. West, who formally announces himself as a candidate for the office of Sheriff subject to the Democratic primary in August.

It is hardly necessary to tell the voters who he is, for he is well known throughout the county and state. For the past several years he has been manager of the LaFayette Hotel here, and through his progressiveness has proven himself to be one of the best hotel men Hickman has ever had.

Mr. West now holds the office of Mayor of Hickman, which he has held for the past year. During this time he has done more for the progress and development of the city than any other

J. O. WEST

man who has held this office for the past fifteen years and this has been done despite the woeful lack of funds with which he has been handicapped.

He was especially active during the war, giving his time daily to the work of the Red Cross and Liberty Loan drives, and it is said of him that two-thirds of the money contributed for war purposes in this part of the county was handled by Mr. West.

He has at all times given of his means and time to the poor and needy of the town and to the religious and benevolent organizations, and his readiness to help those in distress has won for him many friends.

Such is the man who asks for your support at the primary election in August. He is a good citizen, a zealous public servant and if elected he will make the county a very efficient sheriff. We bespeak for Mr. West your hearty consideration because he is worthy of it and will appreciate it.

Our idea of a highbrow is the fellow who pronounces pumpkin and hiccough the way they are spelled.

Nowadays a wedding couple wet comes the old shoes that are thrown at them—if the shoes are of the right size.

The citizen who told about catching the big fish last summer will soon be around telling about the first robin.

It is probably a good thing for the fellow who can "drink or let it alone" that dynamite doesn't come in liquid form.

We see where a Detroit butcher has gone into bankruptcy. He must have given away a piece of liver with a purchase.

There is one auto to every sixteen people in the United States. That

means about six riders to every ten autos.

Where's the Hickmanite who can't be never got in a hurry but what a shoestring broke or his coat got caught in the door?

An Eastern scientist says Americans are becoming round shouldered. Probably from carrying around such a heavy tax burden.

Everybody criticizes the Hickman citizen who spends his money freely but everybody is willing to get busy and help him spend it.

There are a lot of good things in this old world but nothing has yet been found to beat the wife who is both a companion and a cook.

They are having stunts in Kentucky because tobacco prices are low, but we haven't heard of any around the cigar stores for the same reason.

Forty-five new coal companies have been organized in West Virginia in the past three months—and yet some fellows are content to go right ahead in the banking business.

THE "BLUE LAWS"

There is a great deal of space being devoted in daily newspapers and magazines these days to a discussion of the country's possible return to the old "blue laws" of Phlegma days, and since the matter has become national in its scope naturally citizens of Hickman are taking their share of interest in the discussion.

Out of Washington comes a report that the Lord's Day Alliance proposes to stop everything on Sunday which involves any kind of manual labor. This would mean all trains would stop, mail couldn't be delivered. Sunday papers would have to suspend, drug stores and ice cream parlors would keep their doors locked and auto pleasure riding would cease. Not a gallon of gasoline or anything else—could be sold on Sunday. At the same time there comes a denial of this, a high official of the league declaring that it is proposed only to stop everything which borders on commercialism. There could be ball games, if no admission was charged and autos could run provided it was in order to get their owners and their families to and from church.

We do not believe there is a mere law

making community is all the best that can be done in which this paper is interested. And we do not want to see Sunday commercialized to the extent that it will mean a money grabbing day. But we do feel that our citizens are entitled to fresh air and exercise and such innocent pleasures as they feel as best for them after six days of labor. And any attempt to legislate them into being any better than they are is going to meet with a hearty protest from the rest of the town.

OTHER PEOPLE'S BUSINESS

Nothing objection to the way other people run their business is a favorite theme of the American people, and quite a few of that kind of Americans look on the Hickman community as a bad example. Not that this community is doing better from any other for it isn't in one respect. But just as charity should begin at home, so should the work of denouncing other people's faults start at home.

It would be a pleasant surprise for a fellow to think he could run another fellow's business better than it is being run. Take for example the newspaper. You wouldn't run the paper the way we do would you? Of course not. You would do a lot better, but this much we know—you would not run it the way you think you would. No man ever ran a newspaper or any other business just as he would like to do. There is a desire on the part of every editor to please everybody—but he soon learns it can't be done. He starts in determined to print every item of news that comes up and pretty soon learns that he can save a lot of sorrow and unpleasantness by leaving out some few items that occasionally come up. Again there are those who must publish a story, even though it hurts some of his best friends. If a certain newspaper makes some people mad, and if it is left out it makes others mad because it wasn't printed. So the newspaper is criticized either way it turns, despite the fact that the editor would like to please everybody. The same is true of the conduct of every other business. You might run it differently from the other fellow, but you wouldn't even then run it to suit yourself. And we doubt if you'd run it any better. Try to remember that before offering criticism of the other fellow's business, for it will help the business in which you happen to be engaged.

BETTER TALK IT OVER

Tobacco growers of Kentucky are up in arms just now over the loss of the tobacco and farmers throughout the entire west are at a loss to solve the problem of prices for crops and crops. What to plant and how to plant it to plant has now become the most absorbing question with the producers of necessities in this country. So right here we would offer a suggestion. Every town the size of Hickman has either a school house or a public hall or some kind. Why not utilize them right now, during the winter months for holding mass meetings to talk over the situation? Community meetings, and that is what they truly are, are being held already in many sections. Why not make them common wide in this scope, and pass along the word to the next town what has been done by the citizens of Hickman? Bring to our citizens from the rural communities and hear their side of the question. And the state agricultural board to send some one here for a talk who knows what conditions are in every county to the state and who can tell the people what others are doing to solve the big problem. There must be cooperation, and all must be putting in the same direction if any good is to be accomplished. And the community must be offering an ideal way to secure this. The idea is not new—it is in practice now, and wherever community meetings are held and held often conditions are nearer what they should be.

Let's have more community meetings—one every week in every schoolhouse in the county. If possible. For even where but two or three put their shoulders to the wheel the entire neighborhood is bound to feel some benefit.

ABOUT IMMIGRANTS

There seems to be an idea in some quarters that the immigrants now swarming into this country are to be welcomed on the ground that they will help to solve some of our labor problems. But if there is a farmer in Fulton county at that season we would repeat out his error in such belief. For government reports show that these people are flocking to the larger cities and that a very small per cent of them go to the rural districts. The fact is also established that in many instances farmers have found the new residents undesirable, and will not have them around. They are to put it plain, more trouble than they are worth.

While this class of immigrants is coming in a class of emigrants that has been of great value to the farmer is going out. These are the Swedes and Norwegians of the northwestern section of this country, thousands of whom are returning to their native land in flocking across the border into Canada. A large number of these sturdy folk of the soil declare that America is not what it used to be, and that so many undesirable residents are now permitted to land in this country that they see ahead a curtailment of their liberties. The government will have to tighten up if it wishes to protect itself, they argue, and it sounds good.

The entire affair offers something for our law-makers to think about, and the quicker they back up the new law to stop immigration for a year with laws to govern those who are over here looking for an easy living and without work the better it will be for all of us.

In a Gambler's Market

A clerk's error, adding three ciphers to a thousand-bushel selling order, caused wheat to fall 8 1/4 points on the Chicago Board of Trade last October. It didn't change the world's wheat supply by a single grain or affect actual wheat needs by so much as a crust of bread, but every farmer whose wheat was marketed that day lost money as a result.

A short time before, the market was sent tumbling by a false cablegram announcing that France had a big harvest of wheat.

When a clerical error or baseless rumor can rob the farmer of millions, some remedy MUST be found.

A practical remedy is knowledge of world markets. Accurate information on all foreign crops can be gathered and given out. This would make supply known and demand steady.

The Farm Bureau aim to prevent costly price fluctuations by this means. They believe in the "light cure" as a remedy for distribution evils. And you can help! If you are not a Farm Bureau member, join today.

In your individual effort to contribute toward the improvement of farm conditions, you

will find THE COUNTRY GENTLEMAN a powerful ally. With a large staff of editors and contributors covering every corner of the land—even studying foreign markets—THE COUNTRY GENTLEMAN presents each angle of our national farm problems in the most helpful and interesting way. It warns you of causes for price changes before they occur, helps you to make money, entertains and inspires you—all for just \$1.00 for 52 big issues. Send a dollar bill—or your check is good!

H. SWAYNE WALKER, Sheriff.

BROOKS MAY RUN FOR JAILER.

Tom Brooks, formerly of this city, but more recently residing in Mississippi returned home Saturday.

While Mr. Brooks will not say positively, it is known that he has an eye on the jailer's office, and may make the race in the coming primary. He has a host of friends and if he makes the race will make somebody hustle to beat him. —Fulton Daily Leader.

No Worms in a Healthy Child

All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVES' TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a general strengthening tonic to the whole system. Nature will then throw off or digest the worms, and the child will be in perfect health. Pleasant to take. 60c per bottle.

Hon. J. D. Senter, of Humboldt, Tenn., was in the city the first of the week attending the meeting of the circuit court here. He is prominently identified with politics in Tennessee.

Mrs. Frank Crutchfield was in Martin Saturday.

G. W. Boucher, formerly connected with the Fulton Wireless, recently sold the Martin Mail, which he has been publishing since last August, to Messrs. Sanders and Whitcomb. Mr. Sanders has been a member of the Franklin Job Printing Co., of Martin for the past few months, while Mr. Whitcomb was formerly in the automobile business in Martin. The Courier wishes much success to the new publishers.

W. P. Carlin, living on route one, called at The Courier office Saturday renewing his subscription for another year. He tells us that he is now sixty-eight years old and has been a constant reader of the paper ever since he was eight years of age. We are always especially pleased to have our older friends call on us.

SEASONABLE DISHES.

There are so many delicious fall
vegetables that one may have some-
thing different without
repeating for days at a
time.Creamed Kohl Rabi.—
Dice tender kohl rabi,
cut each in quarters
lengthwise and let cook
in boiling water until
tender; season with salt
and set four pieces each
in individual dishes. To
serve five make one cup-
ful of cream sauce with two table-
spoonfuls each of butter and flour and
one cupful of thin cream or milk.
Season with one-quarter of a tea-
spoonful each of paprika and salt.
When boiling hot pour over the vege-
table. For a change add grated
cheese two to four tablespoonfuls.Ragout of Veal With Onions.—With a
cleaver or pestle flatten a veal steak
to about one-quarter of an inch in
thickness. With a small round cutter
cut the veal into rounds. Cook these
in a frying pan in hot salt pork fat
until the juice shows on the upper
surface, then turn and cook on the
other side, add broth and let simmer
until the meat is very tender—about
forty-five minutes; stir two table-
spoonfuls of flour, salt and pepper to
taste, with a little tomato juice, into
the dish, add a cupful of tomato pulp
in rich-sized pieces and cook ten min-
utes longer. Have ready some butter,
drained and browned in butter. Serve
the veal and sauce in the center of the
dish, with onions around it; or serve
the veal in overlapping sections with
the onions around in a circle and the
same in a bowl.Orange Gelatin Cake.—Make sponge
cake in deep round layer cake pans.
Make an orange jelly and mold in
the same pan, dipping it first in water.
Have one layer of the jelly to
two of the cake. When the jelly is
firm, dip the pan for an instant in
hot water, then place one of the lay-
ers of cake over the jelly and place a
large plate upside down; hold the
three firmly together, and turn the
plate over so that the cake will rest
on it with the jelly resting on the
cake. Now place the other layer on
the jelly and frost with orange frost-
ing.**Nellie Maxwell**
Catarrh Cannot Be Cured

cannot reach the seat of the disease.
Catarrh is a local disease, greatly in-
fluenced by constitutional conditions. HALL'S
CATARRH MEDICINE will cure catarrh.
It is taken internally and acts through
the blood on the mucous surfaces of the
system. HALL'S CATARRH MEDICINE
is composed of some of the best tonics

SUPPLY OF GRAIN FOR HENS

Fowls Will Consume More Food in
Spring Than in Fall—Amount
Varies With Breeds.The feeder must use his own judg-
ment in deciding how much grain to
give the hens, as the amount of feed
which they will eat varies with dif-
ferent pens and at different seasons
of the year. They will eat more feed
in the spring while laying heavily
than the summer and fall when laying
fewer eggs.A fair general estimate is about one
quart of scratch grains and an equal
weight of mash (about one and a half
quarts) daily to 12 hens of the gen-
eral purpose breeds, such as the Ply-
mouth Rocks, Rhode Island Reds, or
Wyandottes, or to 16 hens of the small-
er or egg breeds. This would be about
seven and a half pounds each of
scratch grains and of mash daily to
100 Lohorns and about nine and a
half pounds of each to 100 general
purpose fowls. If hens have free
range or large yards containing green
feed a general purpose hen will eat
about 75 pounds of feed in a year and
a Lohorn will eat about 55 pounds. In
addition to the green stuff consumed,
it has been found in experiments con-
ducted on the government poultry
farm.No Quinine That Does Not Affect the Head
Because of its tonic and laxative effect, LAX-
ATIVE BROMO QUININE is better than ordinary
quinine, and does not cause nervousness or
ringing in head. Remember the full name and
look for the signature of E. W. GHOVE, Inc.

RID FLOCKS OF ALL VERMIN

Regular Attention and Proper Treat-
ment Will Prevent Troublesome
Lice and Mites.It is absolutely unnecessary for poultry
to be seriously troubled by either
lice or mites. Regular attention and
proper treatment of the quarters will
rid the flock of mites, and if body
lice are found the birds should be
treated for these also. Usually if a
place is provided where the hens can
dust themselves they will keep the
lice in check.FOR RENT—One furnished room

TO CHEER DISABLED HEROES

All Legion Posts to Join in Campaign
to Aid World War Men in
Hospitals.More than 2,000,000 men in almost
10,000 American Legion posts in all
parts of the United States and its pos-
sessions have been enlisted in a cam-
paign to make life more worth living
to some 200,000 sick and disabled
heroes of the World war who still are
patients in government and private
hospitals and to organize all activi-
ties that enter into their care and
treatment. Government bureaus at
Washington have supplied the Legion
with lists of these hospitals, about
1,200 in number, and the number of
ex-service men who are patients in
each. The country has been divided
according to Legion membership and
each of the five national vice com-
manders of the Legion has been as-
signed to supervise the work of Leg-
ion posts committees and individuals
in various states. A plan to take a
census of all ex-service men, especial-
ly those still in hospitals, and straight-
en out their compensation and insur-
ance claims, is included in the general
program. The full weight of the wom-
en's auxiliary of the Legion will also
be thrown behind the movement and
the assistance of all loyal Americans
is being asked for and gladly accepted."These men in hospitals are our
first concern," F. W. Galbraith, Jr.,
national commander of the Legion,
said recently, "and the situation with
respect to them is far from satisfac-
tory. They are coming to believe and
justly to a large extent, that their
country has forgotten them. Their
greatest need is a friendly hand-
shake, a smile and an unqualified and
often repeated demonstration that we
have not forgotten them and will
never forget them while God gives us
strength to stand four-square with
and behind them so long as they need
our help. It's not our job alone—it's
everybody's job—but it's just a little
closer to the hearts of men and wom-
en of the Legion."The Legion takes the position that
the maimed World war heroes repre-
sent America's fundamental obligation
and that the Legion, backed by the
full weight of sound public opinion,
can make conditions with regard to
them as nearly perfect as human
agencies will permit.

TO MEMORY OF COMRADES

Bronze Tablet Is Unveiled by Gutten-

memorating the death of seven local
men in the World war. The tablet
was unveiled by T. Kern, post com-
mander while 50 school children sang
"Lead Kindly Light."

ENDOWMENT FUND PLANNED

Paris (France) Post Begins Drive to
Raise Large Sum to Aid Ex-
Service Men.The Paris (France) post of the
American Legion has started a drive
for a five million-franc endowment
fund with which to meet the demand
made upon it daily by ex-service men
who are stranded, and by their fami-
lies. The Paris post has been kept
busy helping former vets who were
sick, straightening out legal tangles,
securing employment and helping the
stranded to get passage home.
The Paris post is obviously barred
from utilizing the usual method of
raising funds by entertainment for the
community, and has been forced to ap-
peal to the outside. The American
embassy and the consulate semi-offi-
cially recognize the post's work by re-
ferring hundreds of cases to its care.**GREAT JANUARY SALE**
